

3M FireDam™ 200 Spray

Category : Other Engineering Material

Material Notes:

3M Fire Dam Spray 200 is a sprayable water-based material that dries to form a tough, elastomeric coating. This material is used to firestop perimeter joints (curtain wall), construction joints and through penetration openings. When installed properly, will help control the transmission of fire, heat, and smoke before, during, and after exposure to fire. Information provided by 3M
