

3M Scotch® 896 Filament Tape

Category : Polymer , Adhesive

Material Notes:

Scotch® Tape 896 is a general-purpose medium tensile strength tape reinforced with continuous glass-yarn filaments. The white backing provides an excellent "background" surface for custom-printed tape applications using "topside" flexographic printing methods and 3M™ PrintSeal™ process. The aggressive packaging-grade adhesive is specifically formulated to provide balance performance, having both high initial adhesion and long-term holding power to most fiberboard surfaces. Suitable for use in most general-purpose box closing, bundling, and pallet unitizing applications. Information provided by 3M

Physical Properties	Metric	English	Comments
Thickness	137 microns	5.40 mil	ASTM D3652

Mechanical Properties	Metric	English	Comments
Tensile Strength at Break	20.0 MPa	2900 psi	ASTM D3759
Elongation at Break	3.0 %	3.0 %	ASTM D3759
Peel Strength	0.657 kN/m	3.75 pli	Adhesion to Steel; ASTM D3330

Descriptive Properties	Value	Comments
Adhesive Type	Pressure sensitive synthetic rubber resin	
Appearance	White
