

3M Scotch-Weld™ MG100 LO Medical Grade Instant Adhesive

Category : Polymer , Adhesive

Material Notes:

3M™ Scotch-Weld™ Medical Grade Instant Adhesive are intended for use on a wide variety of materials used in the construction of disposable medical assemblies. They will quickly bond metals, plastics, rubbers, and composite materials and are available with special properties such as fast cure, low odor, flexibility and a variety of viscosities. This product has been tested and meets the specifications of USP Class VI. These products are not intended for use in implantable medical assemblies or for direct application to the skin. MG100 LO is formulated to have low volatility means that these products are not only low volatility while maintaining bonding of a wide range of materials. Low volatility means that this product is not only low odor but also low blooming. Lower odor can improve worker comfort in applications where assembly requires being close to adhesive dispensing or where ventilation is limited. Information provided by 3M

Physical Properties	Metric	English	Comments
Density	1.06 g/cc	0.0383 lb/in³	
Viscosity	80 - 120 cP	80 - 120 cP	U-Tube E40-E43

Mechanical Properties	Metric	English	Comments
Tensile Strength at Break	14.5 MPa	2100 psi	cured, grit-blasted steel; ISO 6922

Thermal Properties	Metric	English	Comments
Maximum Service Temperature, Air	71.0 °C	160 °F	
Minimum Service Temperature, Air	-54.0 °C	-65.2 °F	

Processing Properties	Metric	English	Comments
Cure Time	0.167 - 1.00 min	0.00278 - 0.0167 hour	Time to Handling
	1440 min	24.0 hour	Full Cure

Descriptive Properties	Value	Comments
Appearance	Clear Liquid
