

3M Scotch-Weld™ TL72 Threadlocker Anaerobic Adhesive

Category : Polymer , Adhesive

Material Notes:

3M™ Scotch-Weld™ Threadlocker Anaerobic Adhesives are one-component anaerobic adhesives that cure and seal threaded assemblies that meet a wide range of applications to prevent vibration loosening and/or leakage. All products provide excellent vibration, corrosion, and shock resistance. Engineered to provide different strengths, temperatures, nut/bolt sizes, and other requirements, some threadlockers allow removal and meet various selections depending on the specific application. TL72 is a permanent, high strength threadlocker formulated to lock bolts and studs up 1" in diameter. It can be used for high temperature threadlocking (intermittently up to 450°F) and its thixotropic nature prevents dripping or migration of the liquid adhesive after assembly. Information provided by 3M
