

3M ScotchPad™ 830 Pouch Tape Pads

Category : Polymer , Adhesive

Material Notes:

3M™ ScotchPad™ Pouch Tape Pads are pre-cut pressure-sensitive tapes with a sticky boarder and a printed, non-tack center section that comes either as a standard or custom printed pouch which is clear and becomes a "see-through" window. Each piece of tape is coupled with a strip of liner material for easy handling and application without the need of a dispenser. The product provides a quick, simple, and secure method of attaching and protecting packing lists and other documents on a wide range of shipping containers. With the liner left in place, the product may be used as an open-ended pouch, allowing work tickets, inventory lists, and other shipping documents to be inserted or removed as necessary. Information provided by 3M
