

## Arkema Group Lacovyl® PB 1704 H PVC

Category : Polymer , Thermoplastic , Vinyl (PVC) , PVC, Molded

### Material Notes:

LACOVYL PB 1704 H is a vinyl chloride homopolymer manufactured by microsuspension polymerization process for the preparation of plastisols. It is specially designed for compact articles with low plasticizer content. High mechanical properties are obtained due to its high molecular weight. MAIN CHARACTERISTICS Viscosity index (ISO 1628-2):175 ml/g,(K value:81). \* APPLICATIONS LACOVYL PB 1704 H is recommended for the following applications : top coat (flooring and wall covering), filled and pigmented coatings (impregnation layer in V.E.R, coated fabrics and wall covering). Applications are found in many diverse sectors :automotive, building, shoes, tarpaulins, protective clothes. ISO data provided by the manufacturer, Arkema.
