

Asahi Glass Lumiflon FE-4200 Solvent Soluble Fluoropolymer

Category : Polymer , Thermoplastic , Fluoropolymer

Material Notes:

Lumiflon was developed by Asahi Glass in 1982, and is unique being the first solvent soluble fluoropolymer. The FEVE based Lumiflon has a alternative copolymer. The complete inter-changeability between the Fluoroethylene and Alkyl Vinyl Ether gives excellent weathering and a high chemical resistance. FE-4200 is a fluoropolymer emulsion designed for weather resistant, waterborne coatings, and could be applied for architectural coatings. Information provided by Asahi Glass Company, Inc.
