

## Asahi Glass Lumiflon LF-916N Solvent Soluble Fluoropolymer

Category : Polymer , Thermoplastic , Fluoropolymer

### Material Notes:

Lumiflon was developed by Asahi Glass in 1982, and is unique being the first solvent soluble fluoropolymer. The FEVE based Lumiflon has a alternative copolymer. The complete inter-changeability between the Fluoroethylene and Alkyl Vinyl Ether gives excellent weathering and a high chemical resistance. LF-916N is designed for weather resistant coatings, and has been used in the Aerospace and automotive fields. Information provided by Asahi Glass Company, Inc.
