

Asahi Kasei ASACLEAN PF Purging Compound

Category : Polymer , Thermoplastic , Purging Compound

Material Notes:

Asaclean PF is formulated for super-engineering resins at processing temperatures of up to 420°C (790°F). PF Grade is suitable for Hot Runner cleaning. PF can be used as a sealing material during machine shutdowns within the temperature ranges of 280°-370°C (535°-700°F) due to its superior thermal stability. Information provided by Asaclean.
