

## BCC Products KRYTOX V-116 Mold Release Agent

Category : Other Engineering Material , Additive/Filler for Polymer

### Material Notes:

KRYTOX SPRAY V-116 is a dry, waxy mold release. It is an anti-sick and paintable. It is ideal for use in a broad variety of applications, such as plastic injection molding. Rigid, semi-rigid and flexible parts release from molds easily, and fine surface detail is achieved. Krytox can safely be used with polystyrene, polypropylene, acrylics, nylon, epoxies, rubber, and plaster. Features: Can be used on most common mold surfaces. Plaster surfaces must be dry before application. Minimal film thickness will give maximum results. Do not saturate the mold. Polishes out smoothly for fine surface reproduction. Unlimited shelf life. Chemours was formed from former DuPont performance chemicals businesses, including DuPont Performance Lubricants, in 2015.
