

## Bisalloy Steels BisPlate 80 Thickness >80-100 mm

Category : Metal , Ferrous Metal , Alloy Steel , Low Alloy Steel , Carbon Steel , Low Carbon Steel

### Material Notes:

Low alloy, high strength steel plate with a yield strength three times that of carbon steel and featuring low carbon, excellent notch toughness and good weldability and formability. Utilizing the high strength properties of BISPLATE 80 allows reduction in section thickness without loss of structural integrity. Applications: Transport Equipment, High Rise Buildings, Bridges, Excavator Buckets, Storage Tanks, Lifting Equipment, Mining Equipment, Induced Draft Fans Testing: AS/NZS 3597 Grade 700 NATA approved Welding: According to AS/NZS 1554 parts 4 and 5 Tolerance: In accordance with AS/NZS 1365
