

Borealis BorSafe™ ME3445 Medium Density Polyethylene

Category : Polymer , Thermoplastic , Polyethylene (PE) , MDPE

Material Notes:

BorSafe™ ME3445 is a bimodal polyethylene compound produced by the advanced Borstar® technology. It's fully stabilized against thermal degradation and the die build-up during extrusion is minimized. Furthermore, it has a highly covered pigment that gives a bright colored stripe even when extruded as a thin layer on a black pipe. It also contains UV-stabilizer. Applications: BorSafe™ ME3445 recommended for the production of identifying stripes of black pipes produced from BorSafe™ ME3440 used in drinking water applications. Information provided by Borealis AG
