

BorsodChem ONGROCLEAN 10 anti-scaling agent

Category : Other Engineering Material , Additive/Filler for Polymer , Polymer

Material Notes:

Ongroclean 10 is anti scaling agent for PVC polymerization. Composition of the material: Caustic solution of composite formed by bicycled phenols with formaldehyde. Low viscosity, odorless liquid. Field of application: Prevention of PVC scale formation on internal surface of reactors, condensers and pipes applied for suspension PVC production. Information provided by BorsodChem Rt.
