

CIMBAR Body Filler Talc for Polyester Filler

Category : Ceramic , Oxide , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Gel Talc and Body Filler talc products are produced from high purity ore. Gel Talc and Body Filler products provide an excellent balance of color and mechanical properties for primary use in polyester compounds where consistent viscosity is critical and inherent low oil absorption provides higher filler loadings. Gel Talc and Body Filler talcs are platy, hydrophobic and non-abrasive. Body Filler talc is designed to allow the formulator to achieve maximum pigment/binder ratios.
