

Chesterton 814 Sump Cleaner & Conditioner

Category : Fluid

Material Notes:

Description: Chesterton® 814 Slum Cleaner & Conditioner is a highly concentrated non-foaming alkaline cleaner specifically designed to clean and condition metal working fluid sumps and circulation pipework. Regular use of 814 at sump change outs improves rancidity control by removing dirt, grit, metal fines, insoluble soaps and emulsion oils that create the breeding ground for bacteria and fungus. 814 is a versatile cleaner that can be used in all parts of the metal processing industry. 814 is designed for the toughest cleaning jobs such as decontaminating and removing residues from rancid central sump systems in hard water areas. Features: Concentrated Virtually Non-Foaming Corrosion Inhibited No Residue Excellent Demulsibility Wide Dilution Range Applications: Recommended for the cleaning and conditioning of individual machines, central circulation reservoirs, mix tanks, pipework, tooling, finished parts, floors and all surfaces contaminated with machining or cutting fluids or oils.
