

ChevronTexaco Havoline® SAE 10W-40 Motor Oil

Category : Fluid , Lubricant

Material Notes:

All grades of Havoline Motor Oils are formulated with high quality base stocks, a shear-stable viscosity index improver, and contain detergent, dispersant, wear control, antioxidant, corrosion inhibitor, and foam suppressant additives. Havoline Motor Oils are recommended for all four-stroke gasoline engines used in passenger cars, light trucks, powerboats, motorcycles, and other mobile and stationary equipment. They are excellent for high-revving engines in small cars and light trucks. All grades are specially formulated for use in both new and high-mileage cars, and in turbocharged as well as normally aspirated engines. SAE 10W-40 is still a very popular viscosity grade in warmer climates, though it is not recommended by most auto manufacturers for their late model vehicles. It is often recommended for older model cars that see regular high temperature operation. Typical test data are average values only. Minor variations which do not affect product performance are to be expected in normal manufacturing. CPS Number: 222191; MSDS Number: 8599

Physical Properties	Metric	English	Comments
API Gravity	30.3 °	30.3 °	
Viscosity	6400 cP @Temperature -25.0 °C	6400 cP @Temperature -13.0 °F	Cold Crank
Viscosity Measurement	148	148	Viscosity Index
Kinematic Viscosity at 40°C (104°F)	104 cSt	104 cSt	
Kinematic Viscosity at 100°C (212°F)	14.8 cSt	14.8 cSt	
Ash	0.90 %	0.90 %	Sulfated Ash

Thermal Properties	Metric	English	Comments
Pour Point	-34.0 °C	-29.2 °F	
Flash Point	234 °C	453 °F	

Component Elements Properties	Metric	English	Comments
Phosphorous, P	0.094 %	0.094 %	
Zinc, Zn	0.103 %	0.103 %	

Chemical Properties	Metric	English	Comments
Total Base Number	7.6	7.6	ASTM D2896
