

## Colorite Polymers 4011G-015 (Extrusion), 4012G-015 (Molding) Radiation Sterilizable Vinyl Compound

Category : Polymer , Thermoplastic , Vinyl (PVC) , PVC, Molded

### Material Notes:

Description: A series of vinyl compounds identified as the Colorite "G" series has been developed to resist discoloration and degradation when subjected to gamma ray sterilization. All components used in the manufacture of the Colorite "G" series are sanctioned by the U.S. Food & Drug Administration for food packaging applications under Title 21 of the Code of Federal Regulations. To comply with the exacting requirements of the medical industry complete traceability and lot identification of all components are maintained. Information provided by Colorite Polymers.
