

Colorite Polymers Vinylbond 95-950-70 PVC Compound

Category : Polymer , Thermoplastic , Vinyl (PVC) , PVC, Flexible Grade

Material Notes:

Description: Vinylbond 95-950 series compounds are flexible PVC alloys which are formulated specifically for the window market industry. These compounds offer excellent bonding characteristics to rigid CPVC which makes them ideal for coextrusion profile applications. These compounds are provided non-pigmented and are intended to be custom colored by the customer. Information provided by Colorite Polymers.
