

ConocoPhillips Hydroclear® 220 Multi-Way Machine Lubricant

Category : Fluid , Lubricant

Material Notes:

Description: Conoco Hydroclear Multi-Way Machine Lubricant is a high-quality, heavy-duty circulating machine tool lubricant formulated from premium Conoco hydrocracked base stocks. Hydroclear Multi-Way Machine Lubricant is specially formulated with proprietary additive chemistry containing oiliness and tackiness agents and is recommended for use on the plain bearing slideways of lathes, shapers, grinders, milling machines and other machine tools. Hydroclear Multi-Way Machine Lubricant also can be used effectively on the slideways of saws and carriages found in lumber mills. Hydroclear Multi-Way Machine Lubricant has exceptional stick/slip properties to prevent problems during slow-speed operations. Hydroclear Multi-Way Machine Lubricant provides exceptional control of lubricant runoff, excellent adhesion to horizontal and vertical way surfaces, good rust and corrosion protection and wear protection. Hydroclear Multi-Way Machine Lubricant is available in ISO viscosity grades 68 and 220. Hydroclear Multi-Way Machine Lubricant has been tested and formally approved by Cincinnati Milacron in accordance with its Lubricant Specifications. Information provided by ConocoPhillips.
