

DSM Somos® Precise Stereolithography Polymer

Category : Polymer , Rapid Prototyping Polymer

Material Notes:

Somos® Precise has an extremely fast build speed and low viscosity which translates to reduced processing, cleaning and finishing times, allowing rapid production and true cost savings in large scale pattern manufacturing. Parts produced with Somos® Precise are accurate and consistent, high temperature and moisture resistant and exhibit continued part stability throughout multiple processes. This material is recommended for indirect manufacturing, high heat and high precision applications. Information provided by DSM.
