

Dow Corning P5200 ADHESION PROMOTER, RED

Category : Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Dow Corning P5200 Adhesion Promoter is typically applied in a very thin layer to non-porous and porous construction finishes to increase the bonding capacity of Dow Corning silicone construction sealants and adhesives. The non-VOC solvent used in this product delivers the active ingredients in a thin, uniform coating that enhances surface cleaning, and in some cases, aids in the penetration of the active ingredients into the bonding surface. Information provided by Dow Corning
