

ELM® SoyFluid™ Hydraulic Universal Tractor Biodegradable Tractor Hydraulic-Transmission Fluid

Category : Fluid , Lubricant

Material Notes:

Description: ELM SoyFluid™ Hydraulic Universal Tractor is a readily biodegradable tractor hydraulic transmission fluid formulated with Biotechbased™ USA grown natural vegetable oils. This product surpasses the performance and lubricity of most conventional oils. **Applications:** Designed for equipment using a shared hydraulic fluid reservoir operating clutches, brakes and lift systems **Benefits:** Protects against wear, brake chatter and clutch slippage Superior lubricity protects pumps, valves, cylinders and other hydraulic components Prevents corrosion of non-ferrous metal parts Is compatible with most hydraulic hoses and seals Virtually biodegradable formulation provides the most safety for the environment Meets USDA proposed definition EO 13101 for Biobased products Manufactured in USA from USA grown crop-based oils Information provided by ELM®
