

Fibre Glast 1543 Style 6781 S2-Glass Fabric

Category : Ceramic , Glass , Glass Fiber , Other Engineering Material , Composite Fibers

Material Notes:

S-2 Fiberglass has high tensile strength, high heat & chemical resistance, and is dimensionally stable. The resulting composite fabric meets or exceeds military, aerospace, and other relevant specifications. The 6781 style is the most popular aerospace fabric in use today. 1543 is woven with superior S-2 fibers resulting in good strength with a superior look and finish.
