

Formosa Plastics Formolon® APURG Compound

Category : Polymer

Material Notes:

APURG Powder Purge Compound Series The APURG compounds are highly filled, over stabilized dry-blends designed for use in PVC extruders. The material should be used for normal cleaning purposes prior to equipment shut down. It can also be used during short periods of down time due to maintenance (or other), remaining in the equipment for these short periods, providing a clean screw area for the equipment start up. Information provided by Formosa Plastics Corporation, USA
