

Gwent Electronic Materials C2030325D14 Curable Carbon Ink

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

This product is based on a unique curing process that results in the low temperature formation of a thermosetting conductive coating that combines good adhesion with excellent chemical, solvent and abrasion resistance. It offers the advantage of a One-Pak cure system combined with the convenience of Ambient Temperature stability, which means they do not have to be stored in a freezer or refrigerator. Chemical Resistant Grade Information provided by Gwent Electronic Materials Ltd.
