

Imerys Minspar[®],ç 4 Ground Feldspar

Category : Ceramic , Clay , Feldspar Clay

Material Notes:

Minspar[®],ç 4 is a medium particle size, ground Feldspar with a tightly controlled particle size distribution. The small amount of material retained on a 325 mesh screen, in conjunction with excellent exterior durability, make this an excellent candidate for use in low sheen coatings and primers, along with adhesive, sealant, caulk and elastomeric formulations.
