

## Indium Corp. 4N Indium Acetate

Category : Ceramic

**Material Notes:**

Indium Acetate is a white powder. It is freely soluble in mineral acid and acetic acid, and exhibits an acetic smell. Its particles are needle-shaped and it decomposes to indium oxide upon heating. Properties Chemical Formula:  $\text{In}(\text{CH}_3\text{COO})_3$  Purity: 99.99% Solubility: Freely soluble in mineral acids and acetic acid; slightly soluble in water. Uses Reduction of outgassing and efficiency improvement in alkaline batteries when battery is under electrical load. Chemical synthesis. Information provided by the manufacturer, Indium Corporation of America.
