

## Lord Adhesives Chemglaze® 9956 Airless Spray Thinner

Category : Fluid , Solvent

**Material Notes:**

Chemglaze® thinners are formulated with urethane grade solvents and are used to reduce viscosity, aid bubble release, minimize orange peel, and make application easier. Chemglaze 9974 additive is used for bubble release when using a roller in some Chemglaze Z-Line and V-Line coatings. A blend of slow evaporating, aromatic solvents for improved leveling and flow out, especially for airless spray. Slow evaporation rate and low solvency. Normal use is 10% or less. All information provided by Lord.
