| Physical Properties | Metric       | English      | Comments |
|---------------------|--------------|--------------|----------|
| Molecular Weight    | 118.94 g/mol | 118.94 g/mol |          |

| Descriptive Properties | Value                      | Comments |
|------------------------|----------------------------|----------|
| Assay                  | 43% Co                     |          |
| CAS Number             | 137506-60-6                |          |
| Form                   | Red powder                 |          |
| Purity                 | 99.999%                    |          |
| Typical Impurities     | Na = 2; Fe, Ni, Si < 1 ppm |          |
