| Physical Properties | Metric       | English      | Comments |
|---------------------|--------------|--------------|----------|
| Molecular Weight    | 197.98 g/mol | 197.98 g/mol |          |

| Descriptive Properties | Value                      | Comments |
|------------------------|----------------------------|----------|
| Assay                  | 64% Cu                     |          |
| CAS Number             | 7758-89-6                  |          |
| Form                   | Off-white powder           |          |
| Typical Impurities     | Ag, Fe, Mg, Pb, Si = 1 ppm |          |
