

Master Bond UV14-3 Flexible, UV Curable Adhesive System

Category : Polymer , Adhesive , Thermoset

Material Notes:

Master Bond UV14-3 is a one component, flexible, UV curable polymer system for bonding, sealing and coating with the convenient feature of being readily removable by most conventional solvents. It is a 100% reactive, moderate viscosity liquid at ambient temperatures which does not contain any solvents or other volatiles. UV14-3 cures as a durable, tough, non-yellowing system which can be used as an adhesive, sealant and coating over the exceptionally wide temperature range of -60°F to +250°F.
