

Master Bond UV15-7LRI One Component, Optically Clear UV Curable System

Category : Polymer , Adhesive , Thermoset

Material Notes:

Master Bond Polymer System UV15-7LRI is a one component, optically clear, non-yellowing UV curable polymer system for high performance adhesives, sealants and coatings. When exposed to a source of UV light of adequate wave length and intensity, it cures quickly to produce durable, tough, non-yellowing and chemically resistant adhesives, sealants or coatings with excellent electrical insulation properties. The UV cured polymeric material can be employed over the wide service temperature range of -60°F to +300°F.
