

## Master Bond UV21 One Component Highly Flexible UV Curable Urethane Elastomer

Category : Polymer , Adhesive , Thermoset

### Material Notes:

Master Bond Polymer System UV21 is an easy to use one component UV curable urethane elastomer compound. It has been used for bonding, sealing, casting and formed in place high performance seals and gaskets. The UV21 is a solvent free system and has an excellent six month shelf life at ambient temperatures.
