

Michelman® Catalyst P1 Catalyst portion of a two-part silicone release coating

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Description: Catalyst portion of a two-part silicone release coating Usage: Catalyst P1 is one part of a two part silicone release coating. This coating system provides release for virgin-rubber, asphalt and gum based products from corrugated containers eliminating the need for costly plastic bags. This system is not gluable. Application Data: Catalyst P1 must be used in conjunction with ReleaseCoat® P1 and never as a stand alone product, Catalyst P1 may be applied by either rod or blade coater. Food Contact Information when manufactured in the USA: FDA: 175.300: Resinous and polymeric components of coatings. (Restricted) 175.320: Resinous and polymeric components of coatings for polyolefin films. (Restricted) 176.170: Components of paper and paperboard in contact with aqueous and fatty foods. (Restricted) 176.180: Components of paper and paperboard in contact with dry foods. Information provided by Michelman®
