

Michelman® Michem® Indicator 001 Solution

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Description: Indicator solution to detect the presence of acid functional primers. Usage: Michem® Indicator 001 is an indicator solution for the detection of the presence of Michem® In-Line Primer treatment on dry coated substrates. When applied on dry surfaces which have been properly treated with Michem® In-Line Primer coatings, Michem® Indicator 001 will change color from blue to yellow. Application Data: Apply a drop to the surface. The color will change from blue to yellow if the surface has acid functionality. Information provided by Michelman®
