

## Michelman® Michem® Tite 242AF Skin packaging primer

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

### Material Notes:

Description: Skin packaging primer Usage: Michem® Tite 242AF is a coating designed to provide a tenacious bond between corrugated and either Surlyn or polyethylene clear skin pack films, firmly trapping the product in between. It can only be glued with hot melt adhesives, except where the coating has been flexo applied and left off of the areas to be glued. Application Data: MT242AF is usually applied at the dry end of the corrugator. Typical uses include: Displays; Parts packs and Shipping protection Food Contact Information when manufactured in the USA: FDA:176.170: Components of paper and paperboard in contact with aqueous and fatty foods. (Restricted) 176.180: Components of paper and paperboard in contact with dry foods. Information provided by Michelman®
