

Michelman® Michem® Tite 335AF Skin packing / heat seal coating

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Description: Skin packing / heat seal coating Usage: Michem® Tite 335AF is a coating which bonds corrugated to Surlyn or polyethylene skin pack films, firmly trapping the product in between. Adhesion to most water based or litho inks is excellent, but the inks must be wax-free. This product is hot melt gluable. Application Data: Michem® Tite 335AF should be applied to sheeted corrugated using a roll coater. Typical uses include: Displays; Parts packs and Shipping protection Food Contact Information when manufactured in the USA: FDA:176.170: Components of paper and paperboard in contact with aqueous and fatty foods. (Restricted) 176.180: Components of paper and paperboard in contact with dry foods. Information provided by Michelman®
