

Michelman® Michem® Wax 410 Polyethylene

Category: Fluid, Other Engineering Material, Additive/Filler for Polymer, Polymer, Thermoplastic, Polyethylene (PE)

Material Notes:

Description: PolyethyleneUsage: Michem® Wax 410 as an additive provides excellent block and mar resistance properties and may be used as a detackifier for synthetic and natural rubber. Food Contact Information when manufactured in the USA: FDA:175.105:Components of adhesives.175.300: Resinous and polymeric components of coatings.175.320: Resinous and polymeric components of coatings for polyolefin films176.170: Components of paper and paperboard in contact with aqueous and fatty foods. 176.180: Components of paper and paperboard in contact with dry foods.Information provided by Michelman®
