

Michelman® Micryl,ç 766R Water resistant coating

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Description: General purpose water resistant coating Usage: Micryl,ç 766R is a water and grease resistant coating that can also function as a heat resistant gloss overprint. In such applications, Micryl,ç 766R can be applied to paper (non-clay coated), film or foil, either over or under glycol or wax-free inks. This product is gluable with cold set and hot melt glues. Application Data: Micryl,ç 766R runs well on a flexo press and can also be applied at the corrugator. Typical uses include: Packaged foods; Preprint; Displays; and Specialties Food Contact Information when manufactured in the USA: FDA: 176.170: Components of paper and paperboard in contact with aqueous and fatty foods. (Restricted) 176.180: Components of paper and paperboard in contact with dry foods. (Restricted) Information provided by Michelman®
