

Michelman® Release Coat® 30 Water based release coating

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Description: One component, water based release coating
Usage: Release Coat® 30 is a lower solids, economical, one component coating that provides superior release for a variety of "sticky" products such as hot asphalt. Because it is a one component release system, it eliminates mixing and leftover material disposal. This product is neither hot melt nor cold set gluable.
Application Data: Release Coat® 30 may be blade or rod applied at the wet or dry end of the corrugator.
Food Contact Information when manufactured in the USA: FDA: 175.105: Components of adhesives. (Restricted)
 Information provided by Michelman®
