

Michelman® Release Coat® P1 Uncatalyzed portion of a two-part silicone release coating

Category : Fluid , Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Description: Uncatalyzed portion of a two-part silicone release coating
Usage: Release Coat® P1 is one part of a two part silicone release coating. A catalyzed release coat system offers superior release and in most cases FDA compliance. This system is not gluable.

Application Data: Release Coat® P1 must be combined with Catalyst P1 before applying to a substrate. This product may be applied by rod or blade coater.
