

## Minelco Aggregates

Category : Ceramic

### Material Notes:

Marble is a form of calcium carbonate. Dolomite is magnesium calcium carbonate. Italian Marble colors include Black, Botticino, Breccia Aurora, Red Verona, Rosa Corallo, Verdi Alpi, White and Yellow Sienna. Spanish Marble colors include Beige and Grey. White Dolomite is available from Greek and Spanish sources. Applications: White and colored grades are used in a number of bulk applications including concrete production, garden landscaping and flooring applications. colored grades are particularly useful for achieving decorative effects in building cladding panels, terrazzo floor tiles, seamless flooring and any building application where color adds aesthetic appeal.
