

ND Industries DriveGrip Anti Cam-Out Fluid

Category : Polymer , Thermoset

Material Notes:

General DescriptionND DriveGrip makes removing or tightening screws and other fasteners a breeze. A single drop of DriveGrip creates a positive grip between the metal surfaces of the fastener head and tool. Works great in applications where fastener heads or drives are worn or damaged. ND DriveGrip increases the grip strength between the fastener head and tool by as much as 700% and virtually eliminates tool wear, rounding, and deforming fasteners.**Applications**ND DriveGrip helps you remove rusted or "frozen-in-place" screws and bolts that wont budge. Use ND DriveGrip in conjunction with all types of screwdrivers, hex keys, pliers, channel locks, vise grips, as well as open-end box-end wrenches.
