

## Neutrex Purgex™ 460 Plus Purging Compound

Category : Polymer , Thermoplastic , Purging Compound

### Material Notes:

Blend of a LLDPE carrier plus FDA approved active ingredients. It is a strong purging compound containing 8% active ingredient (concentrate). It is effective for heavily contaminated lines, especially those that have seldom been purged. It is designed for commodity resins, specifically polyolefins. It is effective for compostable and biodegradable resins, is used for color/material changes, and removal of residual contamination in blown film lines.
