

Pau Tai Unistab LCZ-108 Mixed Metal Liquid Stabilizer Calcium/Zinc for Suspension/Plastisols

Category : Other Engineering Material , Additive/Filler for Polymer

Material Notes:

Is designed for use in non-toxic plastisol formulations, particularly rotational casting, spread coating and dipping, such as toy and food contact applications, offers excellent heat stability combined with low viscosity and air release properties. Unistab LCZ-108 has low volatility and free phenol content. Information provided by Pau Tai Industrial Corp.
