

## Plansee Ta10W Tantalum-Tungsten 10 Alloy

Category : Metal , Nonferrous Metal , Refractory Metal

### Material Notes:

Tantalum-Tungsten alloys possess good mechanical properties and excellent corrosion resistance. Ta10W is stronger than pure tantalum, yet it remains easy to work at high temperatures, up to 1 600 °C. Common applications for Ta10W are as heat exchangers and heating elements used in the chemical equipment construction field. Information provided by Plansee.
