

Plansee TaKS Grain Stabilized Tantalum

Category : Metal , Nonferrous Metal , Refractory Metal

Material Notes:

Tantalum with silicon as a doping agent - sintered and grain stabilized
Characteristics: Very high thermal stability - annealing temperatures up to ~ 2000°C
Fine-grained microstructure
High ductility
High strength
Available as wire or sheet, suitable for sintering into tantalum anodes or for furnace construction applications.
Information provided by Plansee.
