

Polimeri Europa Europrene Latice® 2620 Acrylonitrile-Butadiene Copolymer

Category : Polymer , Thermoset , Rubber or Thermoset Elastomer (TSE) , Styrene Butadiene Rubber

Material Notes:

Europrene Latice® 2620 is an aqueous anionic dispersion of an acrylonitrile-butadiene copolymer with low solid content obtained by emulsion using rosin acid soap as emulsifier. It contains a non staining antioxidant. Key Features: Europrene Latice® 2620 is used for solvent resistant technical goods. Main Applications: Europrene Latice® 2620 is specifically designed to be used in the beater addition process. Information provided by Polimeri Europa.
