

Reltek BONDiT™ B-451 Adhesive and Sealant

Category : Polymer , Adhesive

Material Notes:

Key Properties Flexible system for potting, painting, primer and protective coating applications. Excellent adhesion to low surface energy plastics. High chemical resistance. Ease of use. **Applications** High chemical resistance. Tough, flexible coating, primer and potting compound. Alternative to castable polyurethanes, particularly for electrical cable connector transducer termination. Excellent for electrical and electronic applications as a protective encapsulate against very wide range of harsh environmental applications. Excellent for marine applications. Will cure underwater. Can be applied to oily surfaces. Ambient 24 hour or accelerated thermal cure. Information provided by Reltek LLC
