

## Renegade Materials Corporation RM-3002 Bismaleimide (BMI) Resin

Category : Polymer , Thermoset , Filled/Reinforced Thermoset

### Material Notes:

Developed using state-of-the-art formulating technologies, RM-3002 BMI prepreg products deliver superior hot/wet performance in airframe, missile and propulsion applications at service temperatures up to 400°F. RM-3002 "next-generation" BMI delivers improved damage tolerance at higher temperatures vs. industry-standard BMI's. Renegade precision-quality prepregs exhibit excellent handling characteristics and are available in woven and unidirectional form on various fibers including carbon, quartz and S2 glass. A wide variety of nano-materials can be incorporated into this resin system for tailored laminate properties and multi-functional performance. Renegade offers paste (RM-3006 and RM-3007) and film (RM-3011) adhesives compatible with RM-3002. Renegade also offers similar resin systems for RTM (RM-3000) or VARTM (RM-3010) processing. Information provided by Renegade Materials Corporation.

Physical Properties	Metric	English	Comments
Density	1.26 g/cc	0.0456 lb/in <sup>3</sup>	Resin

Mechanical Properties	Metric	English	Comments
Elongation at Break	3.6 %	3.6 %	Resin
Flexural Strength	145 MPa	21000 psi	Resin
Flexural Modulus	4.27 GPa	620 ksi	Resin
